Figure 1 is a schematic diagram of a vertical column, likely representing a chromatographic system. The column is depicted as a long, narrow rectangle. At the top, there is a section labeled "Sample" with a downward-pointing arrow. Below this is a section labeled "Mobile phase" with an upward-pointing arrow. The central part of the column is labeled "Stationary phase" and contains a series of small circles representing particles. At the bottom, there is a section labeled "Effluent" with a downward-pointing arrow. The column is flanked by two vertical lines, and there are small circles at the top and bottom of the column.
